

Night Mode of Operation of Novi Beograd Petrol Station

Notes

1

During the Night Mode, it is possible to use refuelling points 1-6. Refuelling of autogas (LPG) is not possible – refuelling points 7, 8, 9, and 10 are completely locked.

2

All users with versions of the Drive.Go application older than 2.1.1. at each scan of the QR code at these refuelling points will receive the following message on the screen: "Refuelling point is not available" and an info message: "It is currently not possible to make a payment at this refuelling point".

3

During the Night Mode, it is not possible to pick up the package at this petrol station if the shipment has not been pre-paid. During this period, you can make payments at other NIS Petrol and Gazprom petrol stations that are equipped with a parcel machine and then pick up your shipment here.

4

During the Night Mode, users of NIS Taxi, Agro, and Gazprom cards will not be able to refuel and pay for fuel at PS Novi Beograd – Dejton.

5

For payment in the Night Mode at Novi Beograd Dejton Gazprom petrol station, the latest version of the Drive.Go application is required. Payment will not be possible for users who have a version of the Drive.Go application older than version 2.1.1.
